

LANDLORD SERVICES

Helping to make the process of letting your property simple and risk-free

If you are thinking of becoming a landlord or looking to move to a new management company we are here to help make the process as simple and risk free as possible.

As landlords ourselves we know how hard it can be to find the right property and maintain it to keep tenants happy.

Local to the area we can offer impartial advice on the best areas to look for potential rental properties to maximise the appeal to future tenants.

With all the constant changes to legislation we will keep you up to date with the standards, certificates and safety measures all rental properties require.

Properties under our management receive a full inventory, regular inspections, rent is collected and periodically reviewed to keep up to date with the current market values.

We offer Fully Managed or Let-Only services to our Landlords. All prospective tenants are subject to right to rent checks and professionally referenced with the option to be covered by a rent protection scheme if required.

We promise to treat your property with the highest of standards and ensure that any maintenance issues are dealt with promptly by our team of professional contractors.

Whether you are a first time landlord or an investor with a portfolio of properties we will accommodate your needs and deliver a professional service you can count on.
